

BOATING
YACHT SERVICE

Dear Boater,

We present to you what we believe will be a revolutionary product for all boat owners: The annual maintenance program for your boat offered in two packages and charged on a monthly basis: Our Basic & Premium package.

Each package includes the core-activities that all boat owners have to deal with on a yearly basis, such as hull works, polish, engine servicing, periodic cleaning and boat management.

Our premium package covers all the above but added services such as winter storage, dry dock costs, weekly engine checks, refueling services and many more items are included.

All areas are covered with our own in-house staff so there is no need to depend on third party companies anymore. As an owner this offers you peace of mind, knowing that one company is taking care of all aspects of your boat.

The annual service of engines and other moveable parts will be executed by official dealers. We cover a wide range of brands with our sister company Servinautic and will make sure that all members of our exclusive programs will be looked after the best way possible.

As an owner you know exactly what awaits you and the monthly charge allows them to spread the costs of ownership throughout the year. We hope you enjoy reading what we can mean for you and look forward to welcoming you on board as a member of our loyalty programs.

Best regards,

Nicolas Pesich & Ramon van der Hooff
